

# Accelerate your Digital Learning Strategy with our Management Dashboard

#EnhanceDashboard

Are you seeking to upskill your staff in use of technology to improve learner outcomes?

The Enhance Digital Teaching Platform from the Education and Training Foundation has an expanding range of free EdTech training resources that your staff can access anytime, anywhere on any device.

Mapped onto the Digital Teaching Professional Framework, staff can use these modules to build their competence from Explorer to Adopter to Leader and gain digital badges to recognise their engagement along the way.

**Now there is a management dashboard that enables you to capitalise on these free EdTech resources across your organisation and support your staff development.**

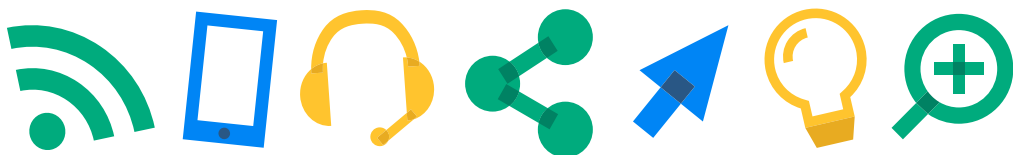

## About the Management Dashboard

- Track staff progress completing EdTech training modules and gaining digital badges
- Support staff progress as individuals, as a cohort or across the organisation as a whole
- Produce timely reports on EdTech staff development customised to reflect your curriculum areas, departments or directorships
- Gain a dedicated online forum for staff in your organisation to share good practice

## Benefits for learning providers

- Strengthen staff development frameworks for upskilling staff in use of EdTech
- Support innovation in teaching and training to improve learner outcomes
- Foster communities of practice in use of EdTech across the organisation
- Harness the benefits of EdTech to support knowledge sharing and spaced learning emphasised in the new Ofsted Education Inspection Framework
